Subject: Microsoft Settlement

To Whom It May Concern:

My wife and I are 100% behind the agreement that Microsoft made with the Department of Justice and nine states. The agreement is fair and it is time that we settle this debate. Microsoft has been the forerunner in its field, and we see no reason to jeopardize a fantastic company. In most free countries of the world, companies are subsidized by their governments. Microsoft is a free enterprise -- has tremendous wealth -- and innovation. Technology is changing on a daily basis and if want to continue our lead in this arena, we must let Microsoft innovate and get on with their business. We have not been hurt one bit by Microsoft's innovation and products. We remember only too well the nightmare before Windows was introduced. We believe that the settlement is in the public interest. Do not listen to those other competitors who would destroy Microsoft as a viable company. Thank you for your time.
